

## Product Specification

Approved\*

### LPIW2-14 – 5m3 Bulk Loose Bale 35% Coir 40% Peat 25% Perlite

Cocogreen® loose raw material is perfect for growers who prefer to make custom mixes to suit their berry crops. This product is ideal for growers who do not have the facility or time to reconstitute/hydrate and would like a ready to use substrate. It is perfect for all horticultural applications from seed trays and propagation to soil conditioning.
